**Arts Council of Henderson County
Artist in Schools Partnership Agreement for Administration**

Exposure to the arts, both in and outside the classroom, is proven to improve academic success. However, not all students have the same opportunities to enjoy these benefits. The Arts Council of Henderson County (ACofHC) Artist in Schools grant helps Henderson County schools find and work with nonprofit arts organizations and teaching artists to provide arts-focused performances, workshops, residencies, and field trips for students attending K-12 public schools in Henderson County.

You are being asked to complete this form as part of an applicant's grant application for the 2024-25 Artist in Schools grant program. ACofHC requires confirmation that your school has approved working with the Artists in Schools Program. Examples include field trips, performances, workshops, and residencies.

Please note that final details, including scheduled program dates, do not need to be finalized at this time, only a commitment to partner with the Artists in Schools Program.
